Neuro-Cloud and FORCE11 Textbook Hackathon

Purpose: Neuro-Cloud’s volunteer contributors have spent the summer writing a free Introduction to Neuroscience Textbook covered under the Creative Commons 3.0 Attribution License. FORCE11 has volunteered to host a 36hr global hackathon to complete the last 2 chapters. The goal of the hackathon is to get the core text and needed resources together so we can finish the project in a timely manner, so we can continue more projects.

Knowledge belongs to everyone, and should be free. We can make this happen. For more information, visit https://sites.google.com/a/force11.org/neuro-cloud-textbook-hackathon/ or Forcell1.com

It is time for academics to take research and knowledge back.

When: August 16-18 starting 12:00 PST. The link to the collaborative document and more info to come.

Watch a global revolution in the making.
